

## xr1405b\_upgrade\_guide

The firmware upgrade procedure for XR-1405B, firmware version 1.09

1. Download the new firmware to c:\
2. Start the browser, log into router's configuration page, click on "Others" -> "Firmware Upgrade"
- 3a. Enter the new firmware's path and file name, 'C:\xr1405b\_109.BIN'.
- 3b. Or, click the "Browse" button, find and open the firmware file.
4. Click "UPGRADE NOW" to start the upgrade.
5. After the upload process is finished, the router will restart automatically.

**Note:**

When uploading software to the Model XR-1405B router, it is important not to interrupt the Web browser by closing the window, clicking a link, or loading a new page. If the browser is interrupted, it may corrupt the software.

If possible, upgrade using a PHYSICAL WIRED ETHERNET (CAT5) connection to one of the four LAN ports.  
(It's OK to download the file wirelessly.)
